Record Retrieval

Champion Records Service provides full service record retrieval, digitizing, copying and electronic delivery of medical records to law firms nationwide.

Our ability to receive orders and deliver electronically provides customers the opportunity to track each request from inception to delivery. It is our mission to keep our customer informed throughout the entire collection process removing the anxiety often experienced with other services.

With more than thirty-five years experience, Champion Records Service is uniquely able to navigate the complex maze of regulation and process to deliver accountable results. Understanding the ever-evolving needs of law firms and the information required, our ability to exceed customer expectations all for maximum awards and settlements while reducing cost.

Fast Record Retrieval: Provides for quick, better record analysis.

Value Added Reports: Law firms need more than just medical records. Champion Records Service provides background reports that potentially shorten the time of litigation and help prove damages (or lack of) in a case.

Personal Customer Support: Our rich status reports, detailing every action in collecting records provides for better team communication.

Billing: We have simple, easy to understand billing structure that eliminates customer frustration and billing concerns.

Quality Control: Our commitment to quality is followed by a five point quality audit throughout the collection process before any request is delivered.

Finally, a record retrieval solution for today's ever changing law firm.

Benefits Include

Customer Service: By customizing our service to the individual law firms, Champion Records Service provides better communication for prompt, accurate delivery of records.

Subpoena and Filing Services: Our experienced staff provide all subpoena and court filings.
